

Underfloor & DIY Safes

(Up to £10,000 cash rating)*

Underfloor safes are designed for installation in a concrete floor. The level of protection provided due to the nature of the installation and location possibilities is huge. Our range of DIY safes is deemed suitable for installation with little or no specialist knowledge. Advice on the installation of this product will be provided at point of purchase.

DIY RANGE:

- Secure storage for A4 papers, passports, insurance certificates or jewellery.
- Models can be installed in a timber joist floor or can be surface mounted.

HOUSESAFE RANGE:

- Available in three models and secured with a high quality safe lock.
- An economical way of protecting cash, valuables and vital documents.
