

System Cabinets

Affordable key control

These cabinets are best suited to domestic and commercial use for key control and tracking. Constructed from pressed and folded steel and secured with a choice of multiple locking options, the cabinets provide the space to store and track up to 600 keys and include adjustable hook bars to accommodate different key lengths. Each model has a removable control index for out-of-hours peace of mind and colour-coded hook bars and tags to ensure quick identification, both of which are numbered. For larger requirements, our range of deep system cabinets provide the extra space required to accommodate bunches or a mixture of bunches and individual keys.

- Includes security loops to secure keys that require clear evidence of tampering or removal.

Multiple locking options (see page 45)
